

Ports of the PNW

An Industry Update on Transporting Agricultural Products

MAY 28th, 2015 2:00 pm

There will be a town hall meeting with a panel of local industry leaders and transportation officials to discuss lack of container shipments due to changes at the Port of Portland. How does this affect our local businesses, river transportation system, farms, jobs, and other shipping options? Come prepared with questions and comments.

We will meet at the Port of Lewiston's dockside warehouse next to the blue crane boom west of the elevators.
