

INCUBATOR PROGRAM

The Port of Lewiston recently renovated the incubator building, located at 1708 6th Ave N. Suites A, D & E are currently available for rent.

AMENITIES:

The incubator suites vary in size with a minimum space just under 1,500 square feet. All suites are:

- Equipped with overhead door
- Furnished with a restroom
- Within city limits
- Served by city water, sewer/wastewater, solid waste disposal
- Near US Hwy 95 and Hwy 12

Lessee is responsible for their own phone, security and Internet requirements. Lessees share in solid waste disposal and some utilities for the facility. The business must meet all City of Lewiston business and occupancy standards and operate a compatible business to the neighboring suites. The Port Commission must publicly approve lease agreements.

PROGRAM AND TERMS:

The incubator program helps start-up manufacturing businesses by providing structured lease rates to qualifying tenants.

Tenant selection criteria is listed below:

- The business should produce a product.
- The business should be ready to begin production.
- Business owners will be interviewed to determine if he or she has developed a sound business plan.
- Consideration will be given to the number of jobs created by the business and the potential for job growth.

Terms of the lease agreement vary from tenant to tenant, but common elements include:

- A three-year lease is usually the initial term.
- The Port will work with the business to construct improvements necessary for their specific requirements.
- Tenants are not required to move out of the incubator building after the initial lease period, but will be required to pay market rate for the continued lease.
