NAVIGATION LOCK UPSTREAM FLOATING GUIDE WALL RESTRICTIONS

Until further notice, vessels transiting the Ice Harbor, Lower Monumental, and Little Goose navigation locks must use caution when operating near those project's upstream floating guide walls.

At these projects, vessels may not tie up to the floating guide wall. Additionally, vessels may not rub against the floating guide wall when approaching or leaving the lock, nor should they use the guide wall as a pivot point for entering the lock.

PROJECTS AFFECTED:

Ice Harbor Lock and Dam – Snake River Mile 9.7

Lower Monumental Lock and Dam - Snake River Mile 41.6

Little Goose Lock and Dam – Snake River Mile 70.3

These restrictions will remain in place until all needed repairs can be made to the locks' floating guide wall cables and other related assets.

For additional information on this work contact the NWW Operations Division at (509) 527-7364.
