**LOWER GRANITE NAVIGATION LOCK WALL DAMAGE**

Due to concrete damage on the Lower Granite navigation lock south wall in the vicinity of mooring bit #4, river traffic is requested to use mooring bits on the north side of the lock to secure vessels during lockages. Presently there is a risk that loose concrete at the mooring bit may become dislodged and fall into the lock, presenting risk of personal injury.

For additional information contact the Lower Granite Operator at (509) 843-2231, call sign WUJ45 Lower Granite, or the NWW Operations Division at (509) 527-7364.
