AMENDMENT TO NAVIGATION NOTICE 14727, 21-10:
LOWER GRANITE NAVIGATION LOCK WALL DAMAGE

Due to concrete damage on the Lower Granite navigation lock south wall in the vicinity of mooring bit #4, river traffic is requested to use mooring bits on the north side of the lock to secure vessels during lockages. **Temporary repairs to mooring bit #4 are now sufficient to allow limited use by locking vessels, and loose concrete was removed from the area. Lock users are encouraged to exercise caution when near this damaged area of the lock wall.** Presently there is a risk that loose concrete at the mooring bit may become dislodged and fall into the lock, presenting risk of personal injury.

For additional information contact the Lower Granite Operator at (509) 843-2231, call sign WUJ45 Lower Granite, or the NWW Operations Division at (509) 527-7364.
