(509) 527-7364

**NOTICE NUMBER:** 15009

**LOCAL NUMBER:** 21-11  
**WTRWY/CHNL:** SNAKE RIVER  
**LOCK(S):** SN 03

**EFFECTIVE:** 07/30/2021 07:00 thru 08/02/2021 17:00

**LOCKAGE DELAYS AT LITTLE GOOSE NAVIGATION LOCK**

On 30 July 2021, Little Goose navigation lock users may experience up to a two-hour delay between the hours of 0700-1400, as the upstream bascule bridge will be temporarily closed to facilitate removal of an electrical transformer weighing 125 tons from the powerhouse. On 2 August 2021, the bridge will again be closed for up to two hours, between the hours of 0700-1700, as a replacement transformer is moved over the bridge and on to the dam. At this time, due to the logistics involved in moving this asset, the outage timeframe cannot be more precisely estimated. This temporary closure of the bridge, to enable transport of the transformer, will render the lock inoperable.

PROJECT AFFECTED: Little Goose Lock and Dam – Snake River Mile 70.3

For additional information on this work contact the Little Goose Shift Operator at (509) 399-2233, x231.
