INDEPENDENT AUDITOR'S REPORT

Port Commissioners Port of Lewiston Lewiston, Idaho

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities of the Port of Lewiston (Port) as of and for the years ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the Port's basic financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Port of Lewiston as of June 30, 2022 and 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Port of Lewiston and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibility of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Port of Lewiston's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Port's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Port of Lewiston's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of pension funding, and budgetary comparison information on pages 6-10 and 27-28, respectively, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Report on Summarized Comparative Information

We have previously audited the Port of Lewiston's 2021 financial statements, and our report dated December 8, 2021, expressed an unmodified opinion on those audited financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2021, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Port of Lewiston's basic financial statements. The details of expenses and details of capital assets are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the details of expenses and details of capital assets are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

Presull Gage, PLLC

In accordance with *Government Auditing Standards*, we have also issued our report dated January 9, 2023, on our consideration of the Port of Lewiston's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Port of Lewiston's internal control over financial reporting and compliance.

January 9, 2023

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the Port of Lewiston's financial performance provides an overview of the Port District's financial activities for the year ended June 30, 2022, and future economic considerations.

Overview of the Financial Statements

The Port's financial statements include two components: the Port's basic financial statements and the notes to the financial statements. This overview and analysis are intended to serve as an introduction to the Port's basic financial statements.

<u>The financial position of the Port of Lewiston is strong.</u> The Port's current assets total \$6,262,229 and have no long-term debt. A portion of cash assets will be utilized in the coming fiscal year to continue to construct the buildout of the dark fiber optic network, rail improvements, industrial park improvements, and continued facility improvements. Additionally, the Port continues to show a positive change in net position.

Condensed Financial Position Information

The statement of net position presents information concerning the Port's assets, liabilities, and net position. Net position is the difference between assets and liabilities. Increases or decreases in net position may indicate, over time, if either the financial position of the Port is improving or deteriorating.

The following condensed financial information provides an overview of the Port's financial position for the fiscal years ended June 30, 2022 and 2021:

	Net P	<u>osition</u>
100570	<u>2022</u>	<u>2021</u>
ASSETS Total current assets	¢ 6 262 220	¢ 6.550.010
Capital assets	21,335,946	\$ 6,550,910 20,726,902
Noncurrent assets	1,364,248	
Total assets	28,962,423	28,599,747
DEFERRED OUTFLOWS – defined benefit pension	148,239	<u>96,005</u>
LIABILITIES AND NET POSITION		
Total current liabilities	136,605	133,109
Total noncurrent liabilities	105,490	<u>291,190</u>
Total liabilities	242,095	424,299
DEFERRED INFLOWS	1,985,779	1,624,299
TOTAL NET POSITION	<u>\$26,882,788</u>	<u>\$26,647,154</u>

In 2022, the Port's change in net position (synonymous to net income in the private sector) was a positive \$235,634 (decrease of 74% percent from 2021). Over the past 10 years (FY2013 to FY 2022), the Port's net position has increased by 22.8 percent (+\$4,986,727). In 2022, total assets increased \$362,676 (+1.3 percent), and total liabilities decreased \$182,204 (42.9 percent).

MANAGEMENT'S DISCUSSION AND ANALYSIS

Condensed Financial Position Information (Continued)

The Port had a \$372,903 operating loss during fiscal year 2022. The operating loss is principally due to depreciation expenses of \$525,345. The actual increase for Port operations in fiscal year 2022 was \$235,634 (positive). Depreciation expense is not a budgeted operating expense for the Port.

The Port is a multidimensional economic development organization. For example, administrative labor expenses are not solely focused on operating revenues generated from rent and terminal operations. Administrative labor also supports economic development activities such as industrial land development and installing a dark fiber optic network within the Port District.

Summary of Operations and Changes in Net Position

The statements of revenues, expenses, and changes in net position show how the Port's net position changed during the most recent fiscal year compared to the prior year. These changes are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, some revenues and expenses reported in this statement will only affect future periods' cash flows (e.g., uncollected revenues and earned but unused vacation leave).

The table below summarizes the fiscal years 2022 and 2021 change in net position:

<u>2022</u>	<u>2021</u>
\$ 2,183,426	\$ 2,682,431
1,947,792	1,773,342
235,634	909,089
<u>26,647,154</u>	25,738,065
<u>\$26,882,788</u>	<u>\$26,647,154</u>
	\$ 2,183,426

The Port of Lewiston's operating revenue (see page 12) reflected a decrease of \$148,781 (8.6 percent) from \$1,723,670 to \$1,574,889 in 2022. All revenue sources increased in 2022 expect for Terminal 1-Dock.

Major revenue sources include Terminal I (dock operations) revenue, Terminal II (warehouse) management operations revenue and building and property rental income. In 2022, Terminal I revenue decreased \$233,693, due to a wind energy project utilizing Port facilities in 2021 but not in 2022. Terminal II revenue remained unchanged, and rental income increased \$12,327. For 2023, Terminal I revenue is forecasted to greatly exceed "normal" levels with a full year of wind energy cargo storage creating revenues expected to top \$700,000. Terminal II and rental income is expected to remain relatively unchanged.

Revenue from expansion of the Port's dark fiber optic network increased \$62,002 (+27,5%). Demand for leasing fiber strands by Internet Service Providers (ISP's) is expected to be strong in 2023.

Total Port operating expenses were up \$217,445 (+11.2%). Depreciation expense is expected to increase, as the Port continues to build-out the fiber optic network.

For a detailed breakdown of the Port's actual revenue and expenditures for fiscal year 2022 compared to the fiscal year 2022 budget, see the "Budgetary Comparison Schedule" on page 28. The fiscal year 2022 Budgetary Comparison Schedule was a \$402,698 decrease in net position on a budgetary (cash) basis.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Notes to the Basic Financial Statements

The notes to the Port's basic financial statements can be found on pages 15-25 of this report. These notes provide additional information that is essential to a full understanding of the basic financial statements.

Capital Assets

In 2022, the Port invested \$1,319,853 (\$1,128,639 capitalized and \$191,214 non-capitalized expense) in the Land Acquisition and Development (LA&D) Budget. This is compared to \$835,533 invested in 2021. Major capital projects in fiscal year 2022 included: Buildout of the dark fiber optic network and the remodel of the Port business office. Other expenditures included rail improvements within Northport, and work within the Confluence Waterfront Plan.

The LA&D Budget is used to acquire and develop property for job creation and retention purposes. The Port strives to utilize property tax dollars for LA&D purposes. The investment of property tax revenue back into Nez Perce County provides for expansion of the tax base and diversification of the local economy. From 2013 to 2022, the Port invested an average of \$1,169,363 per year into the Port District for economic development activities. This investment consists of \$405,000 in property tax revenues the Port receives annually plus additional revenues generated through Port operations.

Long-Term Debt

Net Pension Asset/Liabilities. The District recognized a net pension asset of \$8,331 for its share of the Public Employee Retirement System of Idaho's (PERSI) net pension asset. PERSI is one of the strongest retirement systems in the nation, with funding approximately 90 percent of the pension obligation. The District recognized deferred outflows of \$148,239 for payments made towards the net pension asset and deferred inflows of \$266,527 for the District's share of earnings in excess of the minimum expectation by PERSI.

Economic Factors

The Port of Lewiston is working to extend dark fiber optic cable within the Port District and surrounding region. Dark fiber development involves the installation of conduit and the fiber optic cable in a phased development plan. The fiber optic strands are leased to internet service providers that "light" the cable. The Port began installing dark fiber optic lines in 2016 and currently has over 50 miles of fiber lines installed within the Port District.

In the coming year, the Port plans to continue construction on the phased build-out of the fiber optic network. Of particular note is a 95-mile dark fiber line from Moscow, Idaho, to Lewiston, Idaho, and then from Lewiston to Grangeville, Idaho. The Port has secured a \$4.49 million grant from the U.S. Department of Commerce Economic Development Administration to assist in building this network. Governor Little's Broadband Task Force stated that North Central Idaho is the most underserved broadband area in the state. The Port of Lewiston recognizes that for Nez Perce County to be economically successful, North Central Idaho must have competitive, redundant open access broadband service. For this reason, the Port of Lewiston is working with counties in North Central Idaho to expand broadband service and ultimately connect north and south Idaho with a middle mile broadband backbone.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Economic Factors (Continued)

Dock marine operations include the unloading of Clearwater Paper sawdust barges and the loading of ALTA cedar log barges. Both operations are expected to remain strong throughout 2023. In 2022, the Port served as the upriver barge terminal for the unloading of wind turbine components. Additional wind energy projects are anticipated for 2023. The Port is optimistic that it will become a competitive transportation option for future high, wide, and heavy projects.

Contacting the Port's Financial Management

This financial report is intended to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the Port's finances and to demonstrate the Port's accountability for the financial resources it manages and the stewardship of the facilities it maintains. If you have questions about this report or need additional financial information, contact the Port of Lewiston, 1626 6th Avenue North, Lewiston, Idaho, 83501.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Entity. The Port of Lewiston is a municipal corporation organized in the State of Idaho. The Port operates under a Commissioner/Manager form of government.

The Port's financial statements are prepared in accordance with United States generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the Port are discussed below.

Budgetary Information. The Port commission follows these procedures in establishing the budgetary data reflected in the financial statements:

Prior to June 14, the Port manager submits to the Port commissioners a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.

Public hearings are conducted at various times during the year to obtain taxpayer comments.

Budgets are adopted on the modified accrual basis of accounting. Expenditures for acquisition of property, plant, and equipment are budgeted as expenses but capitalized for financial reporting purposes.

Cash and Cash Equivalents. For the purposes of the statement of cash flows, the Port of Lewiston has included the Port's checking account, savings, money market, and certificates of deposit as cash and cash equivalents.

Capital Assets. The Port's property, plant, and equipment with useful lives of more than three years are stated at historical cost. Donated fixed assets are valued at their estimated fair market value on the date donated. The Port generally capitalizes assets that meet the following guidelines:

Asset Category	<u>Cost</u>	<u>Life</u>
Equipment and vehicles	\$ 3,000	3 years
Computer equipment	3,000	3 years
Furniture and fixtures	3,000	3 years
Improvements to property	5,000	5 years
Buildings and structures	10,000	10 years

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets (Continued). The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets.

Assets are depreciated on the straight-line method over the following estimated useful lives:

10 years
10-40 years
10-30 years
10 years
30 years
7 years
3 years

Pensions. For purposes of measuring the net pension liability, asset, and pension expense, information about the fiduciary net position of the Public Employee Retirement System of Idaho Base Plan (Base Plan) and additions to/deductions from the Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Compensated Absences. Based on the Port of Lewiston's personnel manual, in the event of termination, an employee is reimbursed for personal leave days (vacation and sick leave) accumulated. Governmental Accounting Standards Board (GASB) provides that employers shall accrue a liability for employee compensation for future absences if specific conditions are met. The Port meets these conditions with respect to personal leave benefits.

Use of Estimates. Management of the Port uses estimates and assumptions in preparing financial statements in accordance with United States generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that management uses.

Implementation of GASB Statement No. 87. As of July 1, 2021, the Port of Lewiston adopted GASB Statement No. 87, *Lease Accounting.* The objective of this Statement is to improve the identification of leasing activities for accounting and financial reporting purposes and how those activities should be reported for lessees and lessors.

Economic Resources Measurement Focus and Accrual Basis of Accounting. Under this measurement focus, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Also, this measurement focus distinguishes operating revenues and expenses from nonoperating items. Operating revenues/expenses generally result from providing services and producing and delivering goods related with the fund's principal ongoing operations. All revenues/expenses not meeting this definition are reported as nonoperating.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Financial Statements. The Port of Lewiston uses an enterprise fund to account for the operation's enterprises, where the intent of the governing body is that costs (including depreciation) of providing services be financed or recovered primarily through user changes. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. The Port fund is considered a major fund for GASB reporting purposes.

Reclassification. Certain amounts in the 2021 financial statements have been reclassified to conform with the 2022 presentation with no effect on previously reported net position.

2. BANK DEPOSITS

At June 30, 2022, the carrying amount of the Port's deposits was \$5,484,930 and the bank balance was \$5,281,338. Of the bank balance, \$1,484,671 was covered by federal depository insurance. The remaining bank balance of \$3,796,667 was neither insured nor collateralized.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will reduce the value of the Port's investments. The Port does not have a policy regarding interest rate risk.

Custodial Risk. Custodial risk is the risk that, in the event of the failure of the investment custodian, the Port will not be able to recover the value of its investments or collateral securities that are in the possession of the custodian. The Port does not have a policy regarding custodial risk.

Concentration of Credit Risk. The Port has no policy on the amount they may invest in any one issuer.

3. PROPERTY TAXES

In 2021, the Port certified a tax levy for the fiscal year beginning July 1, 2021, and ending June 30, 2022, totaling \$405,000. Property taxes are levied in November and payable to Nez Perce County, Idaho, on December 20 and June 20 following the levy date and are remitted to the Port in the month following collection by the County. A lien is filed on property three years from the date of delinquency.

4. ACCOUNTS RECEIVABLE, LAND IMPROVEMENTS, AND DEFERRED REVENUE

Historically, the Port of Lewiston has entered into agreements with tenants where the Port will provide improvements for the benefit of the tenant. These improvements are repaid with payments in addition to the tenants lease payment. These transactions are recorded as receivables from the tenant and deferred outflows.

On other occasions, the Port has entered into lease agreements where the tenant provides improvements for benefit of the Port. The tenant is repaid by receiving a credit against future lease payments. These transactions are recorded by capitalizing the improvements and reflecting the prepaid rent as deferred outflows.

Depreciation of \$519,595 was charged to the current year operations (\$505,516 for 2021).

NOTES TO FINANCIAL STATEMENTS

6. NONCURRENT ASSETS

Effective May 2021, the Port of Lewiston entered into a 20-year license agreement with the Port of Whitman for 180 strands of fiber optic cable connecting the two fiber networks at a cost of \$115,000. The cost of the license will be amortized over the life of the agreement. Amortization of \$5,750, was charged to the current year operations, reflecting \$108,292 for noncurrent assets.

7. PROPERTY LEASES

Leases as a Lessor. As a lessor, the Port of Lewiston has entered into agreements involving commercial property. The Port of Lewiston recognizes a lease receivable and a deferred inflow of resources at the commencement of the lease term. The lease receivable is measured at the present value of the lease payments expected to be received during the lease term. The deferred inflow of resources is measured at the value of the lease receivable in addition to any payments received at or before the commencement of the lease term that relate to future periods.

8. DEFINED BENEFIT PENSION PLAN

Plan Description. The Port of Lewiston contributes to the Base Plan, which is a cost-sharing, multiple-employer defined plan administered by the Idaho Employee Retirement System of Idaho (PERSI or System) that covers substantially all employees of the State of Idaho, its agencies and various participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Responsibility for administration of the Base Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the board.

Pension Benefits. The Base Plan provides for retirement, disability and death, and survivor benefits of eligible members or beneficiaries. Benefits are based upon members' years of service, age, and highest average salary. Members become fully vested in their retirement benefits with 5 years of credited services (5 months for elected or appointed officials). Members are eligible for retirement benefits upon attainment of the ages specified for their employment classifications. The annual service retirement allowance for each month of credited service is 2.0 percent of the average monthly salary for the highest consecutive 42 months.

The benefit payments for the Base Plan are calculated using a benefit formula adopted by the Idaho Legislature. The Base Plan is required to provide a 1 percent minimum cost of living increase per year provided the *Consumer Price Index* increases 1 percent or more. The PERSI board has the authority to provide higher cost of living increases to a maximum of the *Consumer Price Index* movement or 6 percent, whichever is less; however, any amount above the 1 percent minimum is subject to review by the Idaho Legislature.

NOTES TO FINANCIAL STATEMENTS

8. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Member and Employer Contributions. Member and employer contributions paid to the Base Plan are set by statute and are established as a percent of covered compensation and earnings from investments. Contribution rates are determined by the PERSI board within limitations, as defined by state law. The Board may make periodic changes to employer and employee contribution rates (expressed as percentages of annual covered payroll) if current rates are actuarially determined to be inadequate or in excess to accumulate sufficient assets to pay benefits when due.

The contribution rates for employees are set by statute at 60 percent of the employer rate. As of June 30, 2022, it was 7.16 percent. The employer contribution rate is set by the Retirement Board and was 11.94 percent of covered compensation. The Port of Lewiston's contributions required and paid were \$40,330 for the year ended June 30, 2022.

Pension Liabilities, Assets, Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2022, the Port of Lewiston reported an asset of \$0 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2021, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date. The Port of Lewiston's proportion of the net pension asset was based on the Port of Lewiston's share of contributions in the Base Plan pension plan relative to the total contributions of all participating PERSI employers. At June 30, 2021, the Port of Lewiston's proportion was .010549 percent.

For the year ended June 30, 2022, the Port of Lewiston recognized net pension revenue of \$35,038. At June 30, 2022, the Port of Lewiston reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of	Deferred Inflows of
	Resources	Resources
Employer contributions made subsequent to the		
measurement date	\$ 40,330	
Differences between expected and actual experience	\$ 12,275	\$ 4,843
Changes in assumptions or other inputs		
Net difference between projected and actual earnings on pension plan investments	\$ 95,634	\$ 261.684
on pension plan investments	Ψ 90,00+	Ψ 201,00 1

Deferred outflows of resources in the amount of \$40,330 related to pensions resulting from employee contributions subsequent to the measurement date will be recognized as an increase of the net pension asset in the year ending June 30, 2023.

The average of the expected remaining service lives of all employees that are provided with pensions through PERSI (active and inactive employees) determined at July 1, 2021, the beginning of the measurement period ended June 30, 2021, is 4.6 years.

NOTES TO FINANCIAL STATEMENTS

8. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Pension Liabilities, Assets, Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued). Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

2023	\$ (37,312)
2024	(33,626)
2025	(29,385)
2026	(58,294)

Actuarial Assumptions. Valuations are based upon actuarial assumptions, benefit formulas, and employee groups. Level percentages of payroll normal costs are determined using the Entry Age Normal Cost Method. Under the Entry Age Normal Cost Method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated as a level percentage of each year's earnings of the individual between entry age and assumed exit age. PERSI amortizes any unfunded actuarial accrued liability based on a level percentage of payroll. The maximum amortization period for the Base Plan permitted under Section 59-1322, *Idaho Code* is 25 years.

The total pension liability in the June 30, 2021, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.30%
Salary increases including inflation	3.05%
Investment rate of return	6.35%, net of pension plan investment expense
Cost of Living Adjustments (COLA)	1.00%

Several different sets of mortality rates are used in the valuation for contributing members, service retirement members, and beneficiaries. These rates were adopted for the valuation dated July 1, 2022.

Contributing Members, Service Retirement Members, and Beneficiaries

General Employees and All Beneficiaries – Male	Pub-2010 General Tables, increased 11%
General Employees and All Beneficiaries - Female	Pub-2010 General Tables, increased 21%
Teachers – Male	Pub-2010 Teacher Tables, increased 12%
Teachers – Female	Pub-2010 Teacher Tables, increased 21%
Fire & Police – Male	Pub-2010 Safety Tables, increased 21%
Fire & Police – Female	Pub-2010 Safety Tables, increased 26%
Disabled Members – Male	Pub-2010 Disabled Tables, increased 38%
Disabled Members – Female	Pub-2010 Disabled Tables, increased 36%

An experience study was performed for the period July 1, 2015 through June 30, 2020, which reviewed all economic and demographic assumptions other than mortality The Total Pension Liability as of June 30, 2021, is based on the results of an actuarial valuation date of July 1, 2021.

NOTES TO FINANCIAL STATEMENTS

8. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Contributing Members, Service Retirement Members, and Beneficiaries (Continued)

The long-term expected rate of return on pension plan investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Even though history provides a valuable perspective for setting the investment return assumption, the System relies primarily on an approach, which builds upon the latest capital market assumptions. Specifically, the System uses consultants, investment managers, and trustees to develop capital market assumptions in analyzing the System's asset allocation. The assumptions and the System's formal policy for asset allocation are shown below. The formal asset allocation policy is somewhat more conservative than the current allocation of the System's assets.

NOTES TO FINANCIAL STATEMENTS

8. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Actuarial Assumptions (Continued). The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The capital market assumptions are as of 2020.

CAPITAL MARKET ASSUMPTIONS

Net of Investment Expenses			<u>6.35%</u>

NOTES TO FINANCIAL STATEMENTS

8. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Discount Rate. The discount rate used to measure the total pension liability was 6.35 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate. Based on these assumptions, the pension plan's net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return was determined net of pension plan investment expense but without reduction for pension plan administrative expense.

Sensitivity of the Port of Lewiston's Proportionate Share of the Net Pension Asset to Changes in the Discount Rate. The following presents the Port of Lewiston's proportionate share of the net pension asset calculated using the discount rate of 6.35 percent, as well as what the Port of Lewiston's proportionate share of the net pension asset would be if it were calculated using a discount rate that is 1-percentage-point lower (5.35 percent) or 1-percentage-point higher (7.35 percent) than the current rate:

	1% Decrease (5.35%)	Current Discount Rate (6.35%)	1% Increase (7.35%)
Port of Lewiston's proportionate share of the net pension liability (asset)	\$ 289,618	\$0	\$ (252,567)

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERSI financial report. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

9. MANAGEMENT AGREEMENT

The Port of Lewiston entered into an agreement to continue with Inland 465 to manage the Port's 150,000 square foot warehouse. The Port's share of the revenue generated from the warehouse operations is derived from a base monthly payment. The agreement expires December 31, 2023.

10. RISK MANAGEMENT

The Port has insurance coverage through a private carrier, providing liability, property, and casualty insurance. The Port is insured to \$3,000,000 for liability coverage, \$20,000,000 in property coverage, and \$10,000 to \$1,700,000 for equipment coverage. Deductible amounts range from \$100 to \$10,000 per policy period.

NOTES TO FINANCIAL STATEMENTS

11. LEASE COMMITMENTS

In accordance with GASB No. 87, the Airport recognizes a lease receivable and a deferred inflow of resources for leases the Port categorizes as in-scope of GASB No. 87. The Port is reporting lessor lease receivable of \$1,616,299 for the ending of the fiscal year ended June 30, 2021. For each of the fiscal years ended June 30, 2022 and 2021, the Port reported lease revenue of \$904,655 and \$892,328, respectively. The amounts of inflows of resources recognized for June 30, 2022 and 2021, was \$1,719,252 and \$1,616,299, respectively.

The Port is the lessor of a number of leases of commercial real estate within the boundary of the Port. The future expected lease receivable and revenue balances for this in-scope GASB No. 87 lease is as follows:

June 30, 2023	\$ 471,627
June 30, 2024	276,782
June 30, 2025	67,452
June 30, 2026	33,807
June 30, 2027	28,466
Thereafter	 841,118
	\$ 1,719,252

12. SUBSEQUENT EVENT

Management has evaluated subsequent events through January 9, 2023, the date the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT - GOVERNMENT AUDITING STANDARDS

Port Commissioners Port of Lewiston Lewiston, Idaho

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of the Port of Lewiston, as of June 30, 2022, and the related notes to the financial statements, which collectively comprise the Port of Lewiston's basic financial statements and have issued our report thereon dated January 9, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Port of Lewiston's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Port of Lewiston's internal control. Accordingly, we do not express an opinion on the effectiveness of the Port of Lewiston's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiency (Finding #2022-001).

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Port of Lewiston's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Port of Lewiston's Response to Findings

Presnell Gage, PLLC

The Port of Lewiston's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. The Port of Lewiston's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

January 9, 2023

SCHEDULE OF FINDINGS AND RESPONSES Year Ended June 30, 2022

SIGNIFICANT DEFICIENCY

Finding #2022-001

Criteria: Internal control systems generally attempt to divide up accounting tasks among multiple individuals (segregation of duties) to improve the ability of the organization to identify errors within the accounting system.

Condition: The Port of Lewiston has concentrated many accounting duties to a few individuals such that the desired segregation of duties is not possible. There are a limited number of personnel available to provide for the desired "segregation of duties."

Effect: Many accounting duties are performed by a single individual with limited oversight available within the Port of Lewiston.

Response: The Port's management and Commissioners believe that the cost of hiring additional accounting staff outweighs the benefits that segregation of duties would provide.

Recommendation: We concur with the Port's response.
