SLOWER LOCKAGES AT LOWER MONUMENTAL NAVIGATION LOCK

The maintenance crew at Lower Monumental Lock and Dam plans to remove tainter valve #3 from service beginning 1200 on Thursday 11 January 2024 to perform maintenance work on the valve. The valve will remain out of service until the start of the navigation extended outage on 14 January 2024.

High winds at Lower Monumental that prevent the placement of bulkheads by crane may delay the start of this work. River users should expect lockages to require an additional 15-20 minutes as this work is performed.
