NOTICE NUMBER: 209026-2
LOCAL NUMBER: 25-04b
WATERWAY(S): Lower Granite
EFFECTIVE: 01/08/2025 06:00 - 02/12/2025 17:30

AMENDMENT #2 TO NAVIGATION NOTICE 209026-1, 25-04a: **SCHEDULED LOCK OUTAGES AT LOWER GRANITE NAVIGATION LOCK**

The Lower Granite navigation lock will be removed from service 0600 to 1730 daily on January 8, 2025, from January 16 to February 7, **and on February 12, 2025** to remove approximately 8,000 cubic yards of sediment from the dam tailrace stilling basin. A pre-work survey will occur January 8th, and sediment removal will occur 16-31 January. The contractor will be performing diving work in the stilling basin 1-7 February to inspect the concrete of the structure. **On February 12, a contractor will be performing a post work bathymetric survey of the work area.** Because water is discharged into the tailrace area when the lock is drained, the lock must remain out of service to ensure the safety of the contract employees.

PROJECT AFFECTED: Lower Granite Lock and Dam – Snake River Mile 107.5

For additional information contact the Lower Granite Operator at (509) 843-2231, call sign WUJ45 Lower Granite, or the NWW Operations Division at (509) 527-7364.
