NOTICE NUMBER: 209377
LOCAL NUMBER: 25-07
WATERWAY(S): Lower Monumental
LOCK(S): LOWER MONUMENTAL LOCK AND DAM
EFFECTIVE: 01/29/2025 06:00 - 02/19/2025 17:30

SCHEDULED LOCK OUTAGES AT LOWER MONUMENTAL NAVIGATION LOCK

The Lower Monumental navigation lock will be removed from service 0600-1730 daily on January 29, 2025 and from February 10 to February 19, 2025 to remove approximately 150 cubic yards of sediment from the dam tailrace stilling basin. A pre-work survey will occur January 29th, with sediment removal and a diver inspection of the concrete stilling basin occurring 10-18 January. A post-work survey will be performed 19 February. Because water is discharged into the tailrace area when the lock is drained, the lock must remain out of service to ensure the safety of the contract employees.

PROJECT AFFECTED: Lower Monumental Lock and Dam - Snake River Mile 41.6

For additional information contact the Lower Monumental Operator at (509) 282-7231. Call Sign WUJ43 Lower Monumental, or the NWW Operations Division at (509) 527-7364.
