**EFFECTIVE:** 01/08/2025 06:00 - 02/12/2025 17:30

---

### **AMENDMENT #3 TO NAVIGATION NOTICE 209026-2, 25-04b:** **SCHEDULED LOCK OUTAGES AT LOWER GRANITE NAVIGATION LOCK**

The Lower Granite navigation lock will be removed from service 0600 to 1730 daily on January 8, 2025, from January 16 to February 7 9, and on February 12, 2025 to remove approximately 8,000 cubic yards of sediment from the dam tailrace stilling basin. A pre-work survey will occur January 8th, and sediment removal will occur 16-31 January. The contractor will be performing diving work in the stilling basin 4-7 1-9 February to inspect the concrete of the structure. On February 12, a contractor will be performing a post work bathymetric survey of the work area. Because water is discharged into the tailrace area when the lock is drained, the lock must remain out of service to ensure the safety of the contract employees.

PROJECT AFFECTED: Lower Granite Lock and Dam – Snake River Mile 107.5

For additional information contact the Lower Granite Operator at (509) 843-2231, call sign WUJ45 Lower Granite, or the NWW Operations Division at (509) 527-7364.
