**EFFECTIVE:** 05/21/2025 07:00 - 05/22/2025 16:00

---

### **AMENDMENT TO NAVIGATION NOTICE 210769, 25-17: SCHEDULED LOCK OUTAGES AT MCNARY NAVIGATION LOCK**

~~The McNary navigation lock will be removed from service on 19 May 2025 from 0800-1600, and on 20 May from 0700-1600.~~ **Due to high winds at McNary on 19 and 20 May, crews were unable to perform their planned crane work. The lock outages at McNary are now rescheduled to 21 and 22 May 2025, from 0700-1600 each day.**  
These outages will be used to move the upstream lock stoplogs from their riverside storage pit and across the bascule bridge, to a location where work will be performed to modify the stoplogs to ensure their compatibility with the new upstream lock derrick crane. This work will require the bascule bridge to be out of service to position a crane for the work.

Project affected: McNary Lock and Dam, located at Columbia River Mile 292.

For additional information contact the McNary Chief Operator at 541-922-2231, Call Sign: WUJ41 or NWW Operations Division at (509) 527-7364.
